

# Testimonials

I have had the privilege of knowing Dee and Luke for around 3 years now. We met just after they moved to beautiful Golden Hill Farm. I was so impressed by the mammoth and unknown task they had taken on. Buying a farm and moving across the country to run it, integrating into a small close knit community, and raising their young family away from their support networks.

The passion and dedication they have brought to making the farm not only a success, but a sustainable, community based business is so inspiring. I have seen them pivot in their practises many times over the years, overcoming obstacles and constantly growing. From the care they give to their livestock, to the community education sessions they run, and the delicious cakes Luke bakes! Golden Hill Farm is a guiding light in the industry.
